PROJECT REMIX

■ LOOP THE LOOP

noise has joined forces with triple j to give you the opportunity to remix some of Australia's best bands.

Artists including silverchair, Resin Dogs, Ben Lee and Bodyjar have offered up tracks, broken them down into their various components and made them available online.

All you have to do is download the track elements from the 'net, remix them into your own musical creation and send your track to noise.

The stand-out remixes of each song, as chosen by the original artists, will receive national airplay and will be profiled online.

HOW

Head straight to www.abc.net.au/triplej or www.noise.net.au to get the lowdown, then download.

DEADLINE

Check the triple j or noise websites for the dates and for more local acts that you can remix.
